Turkey Buster Run

A sunny day and a good turnout of hashers (3) and walkers (4). Wise words from the hare about sawdust, then it was on on, at the later start at 11.

The trail led us from the car park, on to the railway track, where we veered off onto the sand dunes vaguely following the cycle track, but then emerging at the back of the cemetery at Belle Vue. The trail led us to Les Petit Mielles and eventually the railway track, down to Pont Marquet, then the homeward trail back through the elephant park, and on home.

A fairly short run, but nice to catch up with hashers on Boxing day.

Molehills met us at the start, and ET and Walkies joined us at the end. Double Tops provided us with sandwiches and mince pies, and Steptoe had his usual Christmas chocolate jumper.

The down downs were for Jumper as a returnee and the joint hares, Wendolene and Double Tops.

(Ed: Wendolene has provided the photos below which she insists are accurate and truthful...)
