

CRAPAUD H3 REPORT

Run No.:	1727
Date:	12/2/23
Hare(s):	Bags Of It

On a nice bright and calm sunny Sunday morning the Crapaud Hash were to be seen congregating beside the harbour wall below Gorey castle. Numbers totalled 14 which included a trio of intrepid runners (Wendolene, Frisco and Jacko) and our appointed hare, Bags of It.

After a few minutes of general chatter instructions were given by the hare, the On On was called and the runners disappeared eastwards in the direction of the sea.

I hear told that the trail led towards a small gate leading to pathways through the castle grounds and from there around the coast to steps heading up towards Victoria Tower. No doubt there were beautiful views of St Catherine's and the French coast beyond but as a walker my route went in a very different direction although I believe we had just as many steps to climb.

We came across the runners again along La Rue de Guilleaume et Anneville where for a while Frisco and Jacko decided that the gentle amble of the walkers was more suitable to their creaking bones. Unfortunately we didn't have the pleasure of their company for long as they soon rejoined the pack to sample the delights of Anneville Farm which, rumour has it ,may have been new territory for our hashers.

In the meantime the walkers meandered through the lanes of Faldouet and emerged by Ransoms Garden Centre only to be caught up once more by the hardy runners. Once again the hashers pace slowed as the two groups merged and we all enjoyed the off road trail through L'Abri Farm. I must have been deep in conversation or having a senior moment because I can't fully remember the next part but at some point the runners veered off to skirt Queen's Valley to ultimately end up following the On Home across the beach to Gorey whilst the walkers headed down Daisy Hill, through the village and along the path back to Gorey.

Our On Downs, provided by the Dolphin Hotel, were consumed outside in the sunshine and consisted of mini sausages and chips. Yummy.

The morning concluded with our hare, Bags of It, being punished for his sins.

A good venue and a great run and walk, thanks Ian.

This week's hash scribe was Twin Peaks.
