'Farmer' Jacko does it again

Today our GM and Walkies are away in Croatia, so Illegal was able to gather us all together and to inform the pack of the rugby scores. Our hare, Jacko, had booked for 15 hashers at the farmers inn and 15 turn up, twice as many walkers as runners. The walkers were joined by newcomer Rachel, who had previously joined the hash a few weeks ago.

Jacko led the 4 other runners, Wendolene, Ballcock, Frisco and Pervey on a 5 1/2 mile run towards Grantez, the reservoir and returning via St Ouen's Manor, on the way Frisco lost his shoe and Jacko slipped on some 'very slippery steps'.

Many thanks to Pervey for photos from today's run.

Meanwhile the walkers, ably led by Illegal, walked through the lanes of St Ouen, through Greve de Lecq woods and returned via the village, on the way there were a few abstainers, Muff Diver found fishing tackle shopping more acceptable for his injured knee than a longer walk, but his fungi identification skills were missed when the rest of the walkers entered the woods. Molehills and NBM found the Ken Syvret's pathways easier on the bones than sliding down through the woods. The Farmers Inn provided plenty of food and ale for the pack, although the beer was at full price, we had been led to believe there might be some leftovers going cheap from the beer festival, but unfortunately that's next week.

Our hash rev called up birthday boy, Molehills, 2 bike bash hares from last week, Twin Peaks and Fuzz, last weekend's hare Double Tops and today's hare Jacko for down downs which were all seen off well.

A great Sunday morning.
