Eastern Delight

Sunday morning saw us in Grouville where our hare Bags of it lead the 4.4 mile trail, it was laid in sawdust and white chalk, unfortunately for Ballcock there were other white chalk marks going in the opposite direction, he caught up with the other runners as they ran west along the sea wall. The trail turned inland toward Queens valley through, at times, very muddy terrain.

The walkers also went along the sea wall, to Le Hurel slip and then inland on the lanes passing Holmegrown and Grouville school on our way back to the Pembroke for the tasty on downs.

Both the RA and deputy RA were absent today so Molehills was invited (or press-ganged?) into reprising his former role to award the down down to our hare Bagsofit.
