

CRAPAUD H3 REPORT

Run No.:	1791
Date:	12/5/24
Hare(s):	Wendolene

Well with the sun set fair and wind to a minimum it was good to see a fair sized pack gathered this Sunday at the Francis Le Sueur Centre at Les Mielles de Morville in St Ouen's Bay for this week's hash.

With instructions kept to a minimum our hare Wendolene called the 'On On' and the runners soon dispersed not to be seen again by the walkers until the end of the run. I believe the trail led them through the country park onto Le Chemin du Moulin. From here they followed the trail until they joined the track heading up to La Rue de La Campagne. At the next crossroads the pack entered the fields to access the tracks that proliferate the surrounding headlands, ultimately they ended up near the Dolmen des Mont Grantez. My sources also told me that this week's hare may have taken advantage of the remanence of a previous run and that any checks that may have been in place were washed away by torrential rain.....a likely tale considering recent weather conditions but I'll say no more as everyone thoroughly enjoyed their morning.

The walkers, joined this week by Steptoe and Taxi, enjoyed a great walk along the seafront reaching as far as Rocco's Mini Golf, sadly no time to play this week but maybe next time. We returned via Le Chemin du Moulin and followed the hash trail in reverse arriving back at base a few minutes after the runners.

At the centre, a much appreciated sandwich spread, supplied by Wendolene, was soon devoured by the hungry hordes.

Thanks were extended to all the volunteers who helped on Liberation Day (A selection of photos from then is included below.) and 'Down downs' were then awarded to the two birthday girls – Chick Pea and Twin Peaks, to Zak for a telephone misdemeanour whilst Steptoe was talking, and to our resourceful hare Wendolene.
