

CRAPAUD H3 REPORT

Run No.:	1810
Date:	23/09/24
Hare(s):	Ballcock

A motley group gathered today at the ever hospitable Seymour Pub in St Clements for what was to be a 'live' hare run. Once again we were graced with four runners, Ballcock our hare, this week ably accompanied by Wendolene, Steptoe and Software. Our walkers included Illegal, Muff Diver, Vital Statistics, Nil By Mouth, Taxi, Hooker, Molehill and yours truly although I admit the part I played in proceedings was extremely limited due to the need to stick close to a loo.

With today's exceptional high tide coinciding with the start of the run it was fairly obvious, well to me at least, where the pack wouldn't be running today. Yes you guessed it, the beach was to be out of bounds but this didn't stop the runners from accessing the debris strewn promenade for a few yards (or should that be metres) before turning inland to start the serious business of actually running.

After a series of left and right handed turns and steep inclines our runners reached the furthest point for today and found themselves in La Rue du Moulin a Vent. From here it was all downhill back to the coast and the welcome delights and copious amounts of sausages, big fat chips and toast. Yes you read it here first.....not sure about the toast but it certainly disappeared very quickly.

ET joined us before the down downs only to be rewarded with one herself for completing the Castle to Harbour swim that very morning and in a very respectable time too. Ballcock was the only other recipient today and this for preforming his duties as hare although being a live hare has set a precedent I don't think many others can follow.
