

CRAPAUD H3 REPORT

Run No.:	1831
Date:	16th February 2025
Hare:	Bags of it
Scribe:	Nil-by-Mouth

Eastward Bound

Today the hash met on a cold bright morning at Gorey, with the on downs to be held at the Dolphin after today's run. Our hare was Bags of it who informed the group that the trail was laid extremely well and easy to follow, with some virgin territory promised.

The pack proceeded to run, or walk, up the path leading to the castle, la Petite Ruelle Muchie, and then across the road to another hill, Mont de la Guerande, a challenging start to a 5.1 mile run, please see Steptoe's Strava photo of the route taken by the majority of the running group. There were a few SCB's - possibly due to that challenging route?

Meanwhile the walking group took the steps and the lane up to the top of Mont de la Guerande, and paused for photos, or to catch their breath ? They then followed the runners trail for a while through the fields and lanes but turning away from Queens Valley to follow the green lanes and Daisy Hill back to Gorey village and a walk along the seafront to the Dolphin to enjoy the On Downs of sausage, scampi and chips all washed down with our favoured liquid refreshments.

Our RA, Frisco, asked the pack for quiet for the down downs as they were held inside the pub, because it was too cold outside, Software was called forward for the birthday song and Bags of It, our hare enjoyed his down down too.

After the departure of the pack the Mis-management committee held their first meeting under the leadership of Jacko, our new GM.

Gathering at the Gorey bus stop

Suitably attired walkers

Steptoe can smell the ale

So where are the dogs' sunglasses?

Frisco conducts the singing

Birthday boy

Our hare (plus RA)

Jacko chairs his first Mis-management meeting
