Crapaud H3 Report

Run/Walk 1842

Hares: Twin Peaks & Wendolene

Scribe: Steptoe

Substitute Hares

Sadly, Fuzz who was due to hare this run & entertain us at her abode was indisposed & Twin Peaks stepped in to save the day. Whilst the sun was shining there was a cool breeze & our hares had to find a sheltered spot on the St. Martin Village Green.

The GM exulted in the success of the Jersey Rugby teams the previous day when they managed to defeat the Donkeys in all 4 matches. Our substitute hares then promised the 6 runners a short route & off we went. I have no idea where the walkers meandered but I'm sure that they enjoyed themselves.

Wendolene led us at a reasonable pace but we paused to greet the champion pony which had won at Driving in the UK but we had to get on our way & were soon in Rozel Woods. Not for too long though as we climbed out of the other side of the valley. A short stop to admire the veg. available at the roadside stall & discuss the latest price of Jersey Royals ensued. Then off we set for St. Catherines Breakwater where Frisco surprised us all by visiting the toilet block rather than watering the wayside flowers. He was left behind as we climbed Le Mont des Ormes only to descend at the other side & entered Rozel Woods once again. This time we kept to the track for a while before taking a sharp left & climbed the slope. We were soon in sight of the Parish Church & back to the car park,

We found that the walkers were ensconced in a sheltered spot & we joined them for refreshments. French bread & cheeses etc were very welcome.

When we cater alfresco the Hash Rev brings along the down-down drinks. Not this time however as he forgot & additional supplies had to be purchased. A sin like that resulted in a reward of WATER but even better his own water. It seems that Hash Cash had had an argument with his shower but took it upon himself to blame Lisa. This could not be ignored & he was punished along with our hares who had provided us with a good run & good food. Not surprisingly he had no problems out distancing the hares.

On on, Stepoe.
