

# CRAPAUD H3 REPORT

<b>Run No.:</b>	1858
<b>Date:</b>	24/08/25
<b>Hare(s):</b>	Frisco

The wild north beckoned us this week for a run hared by the hash Reverend, Frisco. And so it came to pass that the pack gathered on Sunday in the carpark at St John's school to listen to the sermon. Well, it wasn't technically a sermon just a report from the Grand Master of recent sporting fixtures followed by the usual instructions from the hare of where and where not to run, to be mindful of brambles, thorns etc and to be extremely careful when using the step ladder! The latter instruction was ignored by Steptoe but he did live to tell the tale although with a newly acquired squeaky voice – I leave the rest to your imagination.

Before the On On was called we held a minute's silence in honour of the recently departed Popeye, a long-standing and respected hasher and gentleman.

The pack headed south along Chestnut Avenue but soon disappear into the fields not to be seen again until we were all reunited at the pub. The map below gives a rough idea of the trail which seems to have gone up hill and down dale, through swamps and deserts and needless to say it encompasses all points north, south, east and west with only a few minor injuries sustained enroute. (Ask Steptoe and Frisco for more details.)

In the meantime our walking group, of which there were many in number, also headed south, north, east and west but by a totally different route which included bypassing St John's manor, shortcutting St Mary's village, dropping into Mourier Valley before heading home via Rue de L'Etocquet. The two groups arrived at the pub at almost the same time and didn't have to wait long for the promised chip and sausage butties.

The first On-downs were awarded to Frisco and Et for having had birthdays' this week, further On-downs went to Capt Poocock for not mentioning the hash in a recent BBC interview, to Tinky for sending a spreadsheet to Illegal containing all the SECRET Bike Bash info and to Hand Pump, a returning hasher for returning to the hash after quite a long absence! And finally to Frisco again for being this week's hare.
