

# CRAPAUD H3 REPORT

<b>Run No.:</b>	1862
<b>Date:</b>	21/09/25
<b>Hare(s):</b>	Commando (& Wendolene)

After several months of closure The Vic in the Valley, or The Victoria, to give it it's correct name, once again opened its doors to the hash. Welcome news as its in the centre of some great hashing territory.

Over night the weather had been abysmal but the sun gods took a little bit of pity on us and the runners and walkers enjoyed a morning of sunshine and showers, so a warm run but not a dry one. Once back at the pub it was a different story as the heavens really opened, this meant that the down downs were held inside, no problem on this occasion as other customers were few and far between.

The pack were slow to assemble when called to order but appeared to pay attention when the GM mentioned the ladies rugby results – a win for England which sees them in the final against Canada next weekend. Local football results weren't quite so good so I won't say any more.

The hares this week were Commando and Wendolene, the later laying a great trail through the leafy lanes of this lovely valley. The runners headed north and south, up hill and down dale. Through meadows, where Jacko took a tumble and along pathways, where Bags of It became separated from the pack and had to find his way home – alone. The walkers meanwhile followed the start of the trail but then ventured into the wilds of St Lawrence into Indian territory. (See pic.)

Thankfully we were all reunited at the pub and enjoyed a sumptuous spread of superior sausages, scrumptious chips and delectable bread and butter not to mention the decent ale which kept Steptoe happy.

On downs were awarded to Muff Diver for haring last week's run whilst the rest of us were participating in the Tour de France, Jacko for falling off his bike at the harbour on our return and Commando for haring the run this week.
