

CRAPAUD H3 REPORT

Run No.:	1864
Date:	3rd October 2025
Hare(s):	Bags Of It
Scribe:	Nil by Mouth

Eastern Delight

Meeting today by the Harry Vardon statue near the Pembroke, the venue for the on downs later, we spied some unidentified enormous mushrooms, but no one cared to taste an 'Australian Beef Wellington!'

Our hare today is Bags of it, who welcomed us and informed us that his original trail had been blown/washed away, but he had gone out this morning to set out more chalk marks for the trail. The eight runners duly ran northward, see photo of the hares strava for the route. I was later informed that it was a long fast run, with some virgin territory, there were a few mishaps, the hare was seen to take a tumble and bounced back up onto the trail, was he trying to emulate our GM Jacko ?

Two of the pack possibly took a wrong turn and had a shorter run, Software and Steptoe enjoyed extra time at the bar before the arrival of the other runners and walkers, see Steptoes strava pictures to compare the two runs, 9km(5.59 miles) and 4.72miles.

Meanwhile the walkers crossed the road and went along la rue des Pres, onto La Rue A Don past the church, no takers for the service just about to start, and along La Rue de Grouville, where Tinky, Poocock and Molehills turned left to go for coffee at Tinky Towers. The other seven walkers followed Illegal up the hill, onto La Rigondaine where we followed the footpath around Queens Valley Reservoir and out past Le Pres Manor and on home to the Pembroke for generous refreshments.

The group gathered outside in the 'Backyard Bar', our hash rev is currently holidaying in Italy so Molehills stood in to do the single down down for the hare, Bags of it.

NB. The date for the Christmas run has been set for the 7th December, with a Christmas theme. More details to follow.

Our hare sets out his stall

Hiding from the vicar?

“Show me the way to go home...”
