## Nothing Can Go Wrong!

This was the message from our hare when explaining the markings for today's trail. How is it, then, that some of us lost the trail 3 times during the run? Over to you for any explanations.

The pack gathered in the lower car park at La Grande Marché in St. Peter. Apart from the positive sporting results (both international & local) the topic of conversation was the demise of Blue Islands effecting the Crapauds due to celebrate the Truro H3's 2,000<sup>th</sup> run the following weekend & Molehills being stranded in England. Thanks to Tinky Winky's efforts the delegates had been booked on DFDS on Thursday evening & would therefore not miss the ball nor the Red Dress Run.

The half dozen runners set out eagerly & followed the trail that led us around the airport. It was in this area that half the pack missed the arrow directing the runners through the football club grounds. No problems as Ballcock came speedily back & so the pack was quickly reunited. And so it remained until near the end of the run. It was up hill & down dale as the runners discussed matters of moment. So intent were Frisco & Steptoe that they failed to spot the true trail & subsequently made their own way back to the car park only eventually to find some walkers impatiently waiting for the pub to open at 11.30 am. Having had the pleasure of a decent ale the hashers were confronted with a huge pile of small sausages & chips which were attacked by the hashers. Nonetheless, there were plenty of sausages left over for members' dogs to enjoy. Is it Buggery & Muff Diver were serenaded with the birthday song & disposed of their reward most efficiently. Our hare was the final victim & managed her reward for delivering a good run with aplomb.
