

# CRAPAUD H3 REPORT

Run No.:	1874
Date:	14/12/25
Hare(s):	Shifty & Twin Peaks

Some would say it was another beautiful day in paradise as the sun beat down on the not insignificant number of hashers gathered at Les Quennevais for this week's run.

The Grand Master called the pack to order and gave a BIG 'Thank You' to Hooker and Wendolene for organising another very splendid Christmas Party. The GM then delivered the usual sports report and also welcomed two returning harlettes – Just Michelle and Beaver. Instructions duly followed from the hares and then it wasn't long before the runners were on their way. North, south, east or west only time would tell.

Both the walkers and runners started out on the railway track but were soon directed onto the sand dunes to then skirt around Creepy Valley, Les Ormes, the Air Training Corps centre and the old Airport Social Club to emerge onto the airport road. From here they headed into Clos Saut Falluet, Pont du Val and Petit Route des Mielles. The trail made use of the tracks heading into and out of Charles Le Couteur's land to then re join the railway track. From here it was into the Country Park, across to the Lavender Farm and then a run past Reg's Garden.

Not far from here it was noted that an erroneous FT had been added to confuse our runners but they were not to be outwitted and faithfully stuck to the trail. Coincidentally it was also at this point that a short cut had been arranged for those lacking stamina but I'm reliably informed that no one took advantage of it and instead the running pack headed down the old path near Dr Hima's house and into St Brelade's Bay. The last part of the run was up through Winston Churchill Memorial Park, back to Red Houses and the estates bordering Les Quennevais Sports Centre. All this I know in detail because I was one of the hares!

On Downs were held at Jersey Croquet's club house and were provided by our two hares.

Down Downs were awarded to ET for a parking infringement, to Capt. Poocock for the alleged theft of the GM's shoes, to Bags of It for sending his annual subs to the wrong bank account and of course to our two hares – yours truly and Shifty.

Thanks were issued via the JEP to all landowners who so kindly allowed us to access their land throughout the year.

Last week saw the renaming of one of our harlettes and henceforth V....Viv is to be known as Vee Vee. :-)

Next week's run is from the Portelet and will be hared by Muff Diver.

Twin Peaks
