

# Crapaud H3 Report

4th January, 2026

Run/Walk 1877

Hare:

Frisco

Scribe:

Steptoe

## Cold & Bright

St. John's School Car Park is the meeting spot for the first run of the New Year. The weather is again somewhat cool & runners & walkers alike are heavily clothed. Our GM welcomes all & gives us the sporting news. He admits to having indulged enthusiastically on New Year's Eve.

Spot the pony tail

Preparing for the Board Meeting

Our Hare, Frisco, claims to have laid the trail in sawdust & found virgin territory. Did we believe him? Scepticism reigns supreme in the ranks. There were 8 runners braving the elements & a fair number of walkers. There was some sawdust which led us to the North Coast Footpath where we headed west. The visibility was excellent with good views of the northern Islands but we eventually turn south & head for the pub. The GM decided to sport some horns with Pervey & Ballcock plighting their troth with a token discovered on the run.

The pub was welcoming & provided us with some “interesting” food although the French fries were a long time in arriving. We were called outside & the birthday song was sung for Steptoe for surviving yet another year. Our GM was threatened to be renamed “Twinkle Toes”

with his continuing problems with footwear & Frisco for providing a good trail but lacking the promised virgin territory. They disposed of their down downs efficiently.

Happy

GM - still suffering after New Year?

Winter garb

Ready for anything

Hearty sawdust

The walkers pause

Runners stretching out in the sunshine

Sitting pretty

Heading for Sark

A well deserved rest

On the horns of a dilemma

The future of farming?

Green fields

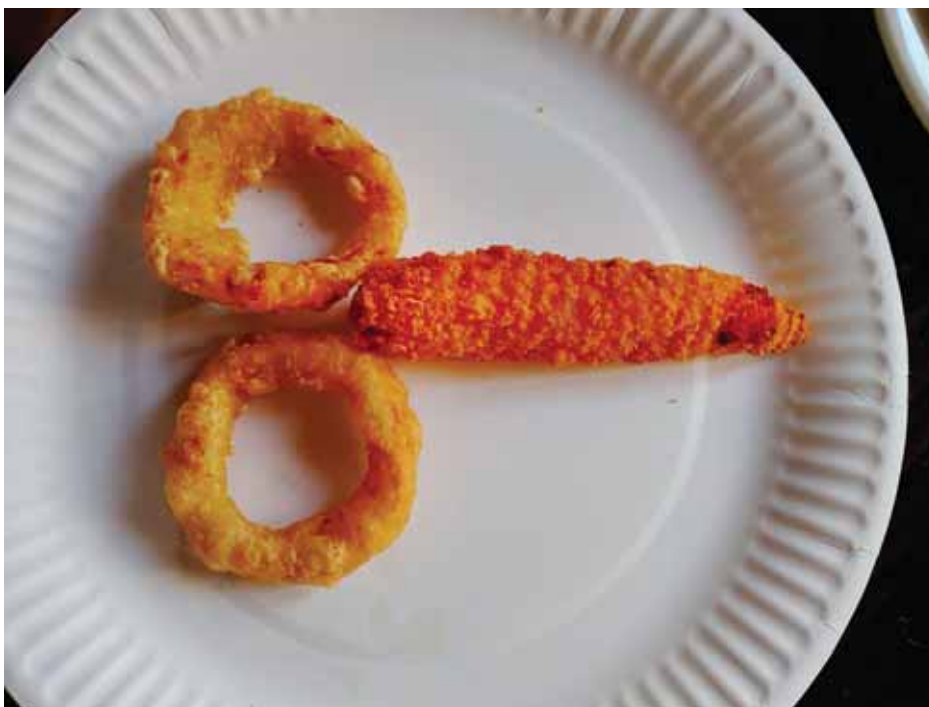

Engagement

Contemplation

Ostentation

Interesting Hash nosh

Another year older
