

CRAPAUD H3 REPORT

Run No.:	1894
Date:	03/05/26
Hare(s):	Smuggler & Nil By Mouth

The sun shone on the righteous this Sunday when the hash gathered at Le Hocq carpark for this week's hash run. Our hares had a surprise in store for us as we weren't convening afterwards at the pub as you would expect but on the green, besides the Jersey Round Tower, where bacon butties and flapjacks were the order of the day. Plus it was open day at the tower and our hares had permission for us all to take a peep inside on this rare occasion.

It was a good turnout with almost a full compliment of runners and plenty of walkers too.

The GM called the pack to order and delivered the local sports results, a reminder that help was needed on Liberation Day and a further reminder about the Bike Bash in September.

Our hares were then called to introduce their run and give a brief description of the trail. No markings but a live hare, 'En Bicyclette', was to be the order of the day.

On On was duly called and the pack, closely followed by the walkers, headed to the beach and eastwards towards Pontac slip. From here it was inland past the allotments and on towards St Clement's church. Unfortunately I can't provide full details of the runners' trail but the photos provide some clues and I'm assured it was a lovely and varied trail through thickets and undergrowth, up hills and down dales – I'm sure you get the picture!

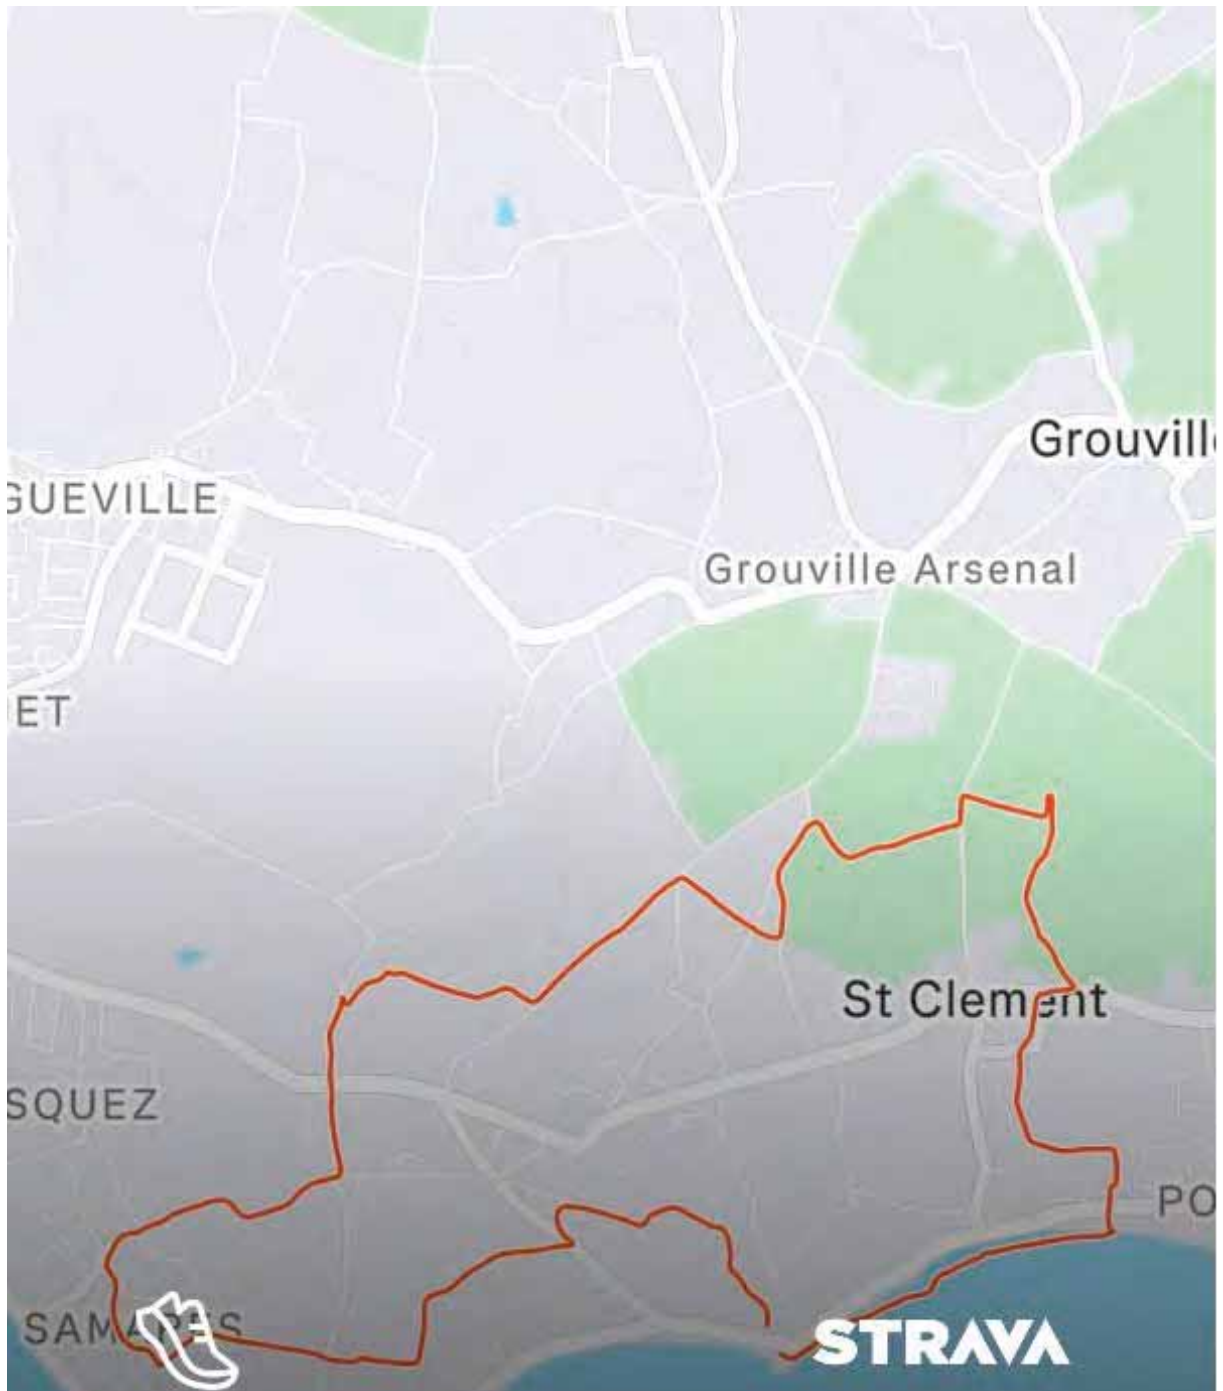

Our walking group, lead by Nil By Mouth, roughly followed in the same direction but with a few short cuts. A first for most of us was a visit to Len Norman's Arboretum situated behind the church – a beautiful peaceful setting for quiet contemplation. After a few minutes spent here appreciating the view we made our way back to the road and followed the loop through Le Rocquier school and back to the coast. It wasn't long before walkers and runners were reunited and the promised food appeared and very lovely it was too.

On downs were awarded to Frisco for absent mindedly leaving behind a pack of beer at the previous picnic run and to the hares for an interesting and much appreciated trail.

On On

Twin Peaks.

Tale of the Missing Hash Beer Mystery: Unusual Down-Down & proclamation after today's Hash. Our GM revealed our RA had seriously sinned, losing the Club's beers for a few weeks. He was duly punished with a pint. Having downed his punishment while still frothing out of his gob our RA proclaimed "*I did not join this Club to be humiliated like this!*", which left us all wondering what did he expect when he joined our Club! I felt important to record his proclamation for posterity.
