Virgin territory from Fuzz

We met this week at the car park opposite the St. Martin Public Hall. In the absence of our GM and Hash Rev Steptoe stepped up and called the opening circle. He handed over to our hare Fuzz who explained that there was virgin territory to be encountered. She warned of live electric fences and free roaming cattle. Thankfully in the end neither of these transpired – a thoughtful famer perhaps?

There were only three runners this morning, Steptoe, Wendolene and Ballcock. Once they set off the walkers followed in the same direction. Fuzz directed us towards the aforementioned virgin territory which was across a field and through a wooded are to finally emerge on the path down to St. Catherine's woods.

From there the walkers split into two packs. Half continued through the woods led by Muff Diver and the rest continued up the path led by his better half Twin Peaks.

All three groups finally ended at chez Fuzz for the refreshments and down downs. She and her partner, Adrian, had laid on a super spread and we all gleefully tucked in. Including chocolate birthday cake...

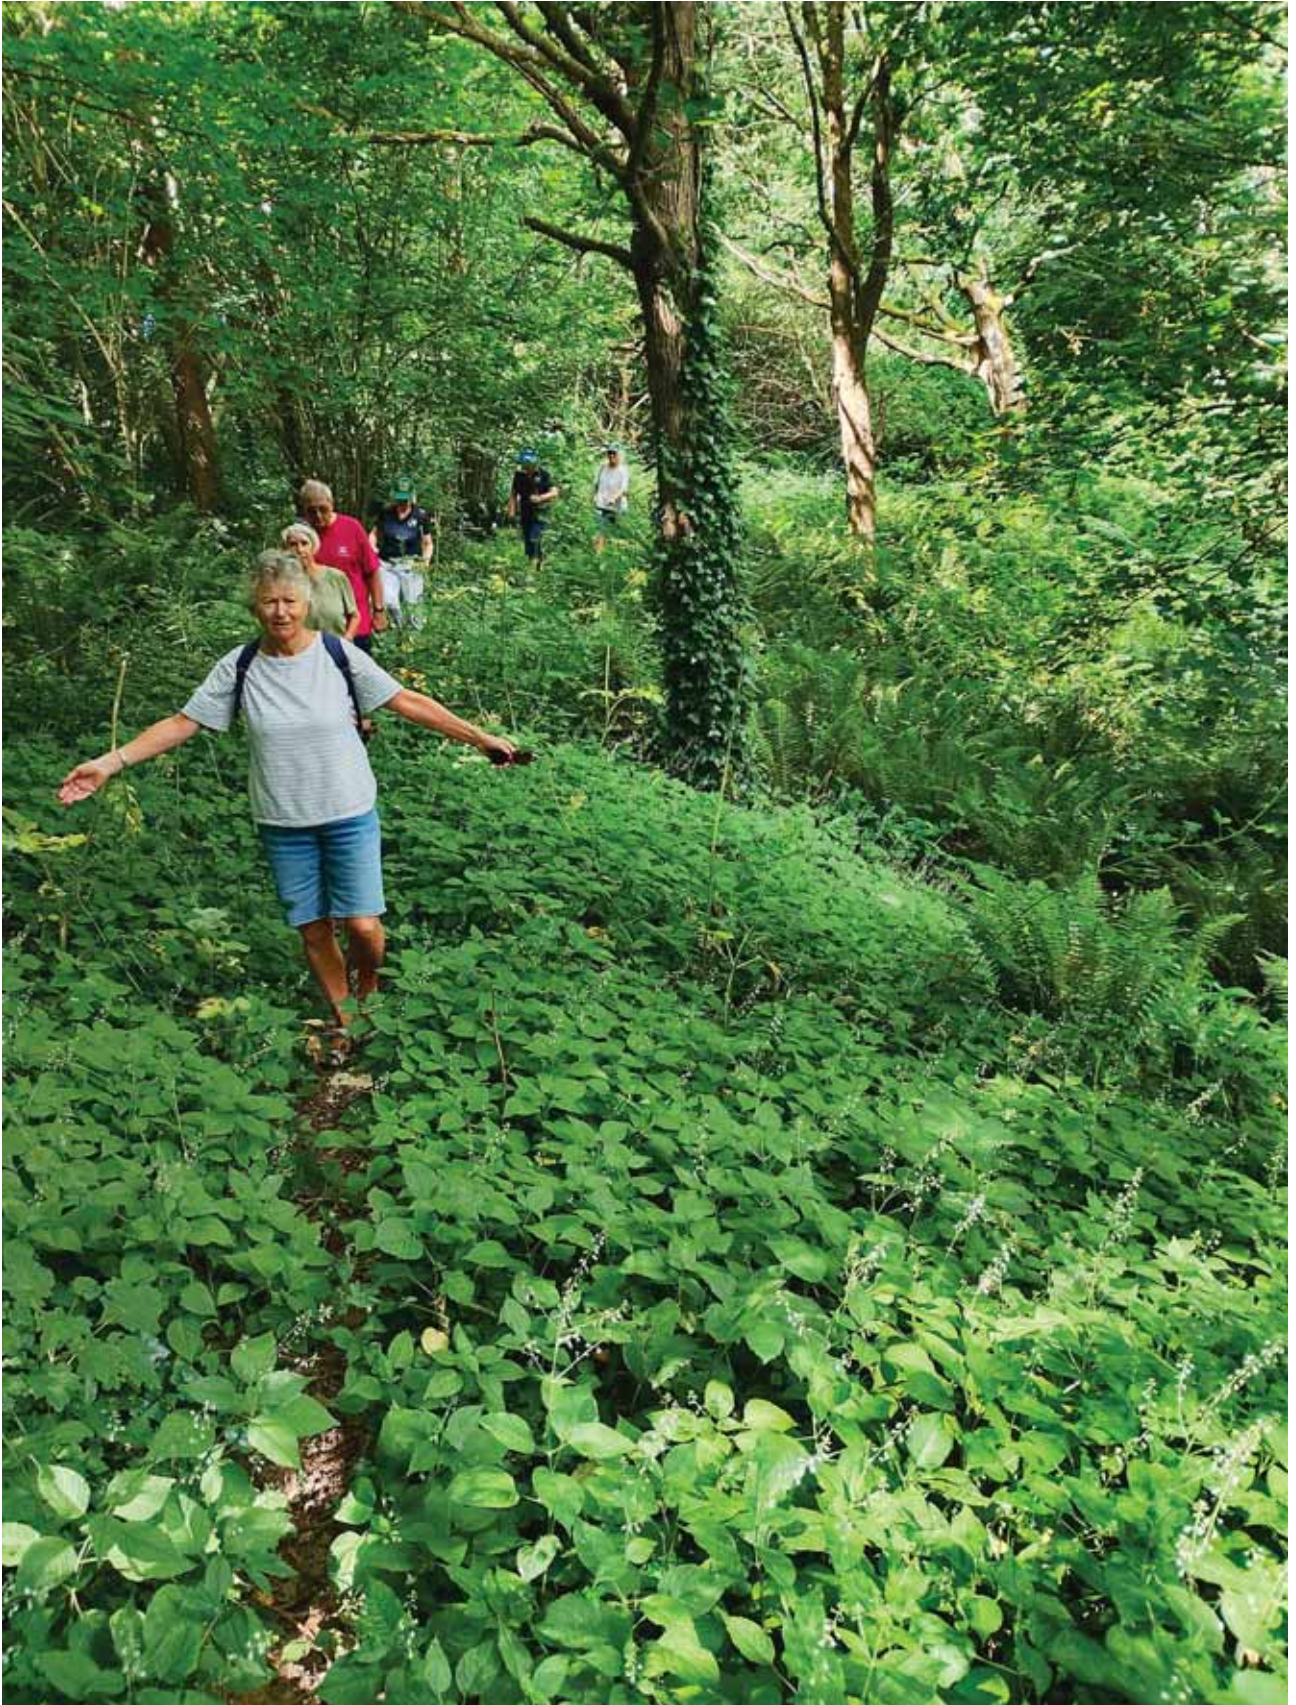

It was then time for the down downs. First up was birthday boy Adrian – a very youthful 70! He was followed by our lovely hare who was warmly thanked for a great morning's jaunt.
