Another Ruby anniversary run

This week there wasn't a CH3 run, instead we joined in the JH3 run to celebrate 40 years of hashing in Jersey. The run was from the Scout hut in St Ouen where JH3 had held their 'Spooktakular' weekend of celebrations. After Bear, the JH3 GM, had called the circle the hares, Kermit and Lobster, told us the trail was laid in sawdust.

The runners were led by Kermit and the Walkers by Lobster. The trail was cunningly laid as the runners zig zagged across the walkers' path. There was an attempt to coax the pack through a small stream but most avoided getting their feet wet by either taking an alternative route or, for the more able bodied, jumping over it.

On returning to the Scout hut we slaked our thirst before being served with pumpkin soup (in honour of JH3's 'Spooktakular' Halloween weekend). We were then treated to a lovely assortment of home baked cakes – yum yum.

So it was time for the final circle and punishments. The two hares were called forward and were joined by Jacko (who uncharacteristically had fallen over on the run) and lastly Tartan Farter for an excellent 'sermon' at the JH3 party the previous evening.

The final event of the day was Tartan Farter's famous virtual fireworks display. All in all a most enjoyable way for the Hashes to mark the occasion.
